STEP 13

Download the package with sample config files

Installation package with Auto Updates (Recommended)

Product component	Release Date	Version	Download
iManage Work Desktop for Windows Auto Update Installer	October 18, 2022	10.8.0.6	Download NOTE: Please refer to UPDATED ADVISORY: Visual green check mark and scrolling issues with email filing in Work Desktop for Windows 10.8.
iManage Work Desktop for Windows 10.8 Sample Integration XML files	October 18, 2022	10.8.0.98	Download

iManage Work Desktop for Windows 10.8 (10.8.0.98)

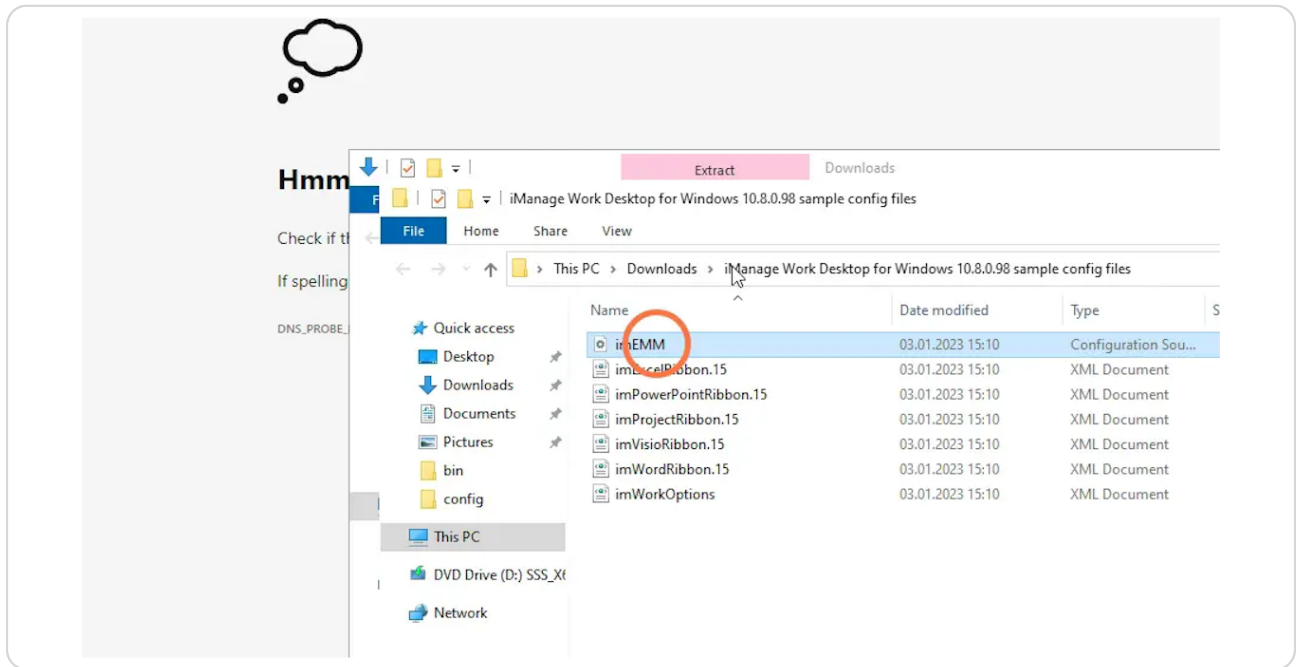

STEP 14

Go to Downloads

The screenshot shows a web browser window with the Downloads folder open. The Downloads folder contains two files: 'iManage Work Desktop for Windows 10...' and 'imEMM.config'. A red circle highlights the download icon for the first file. The browser's address bar and navigation icons are visible at the top.

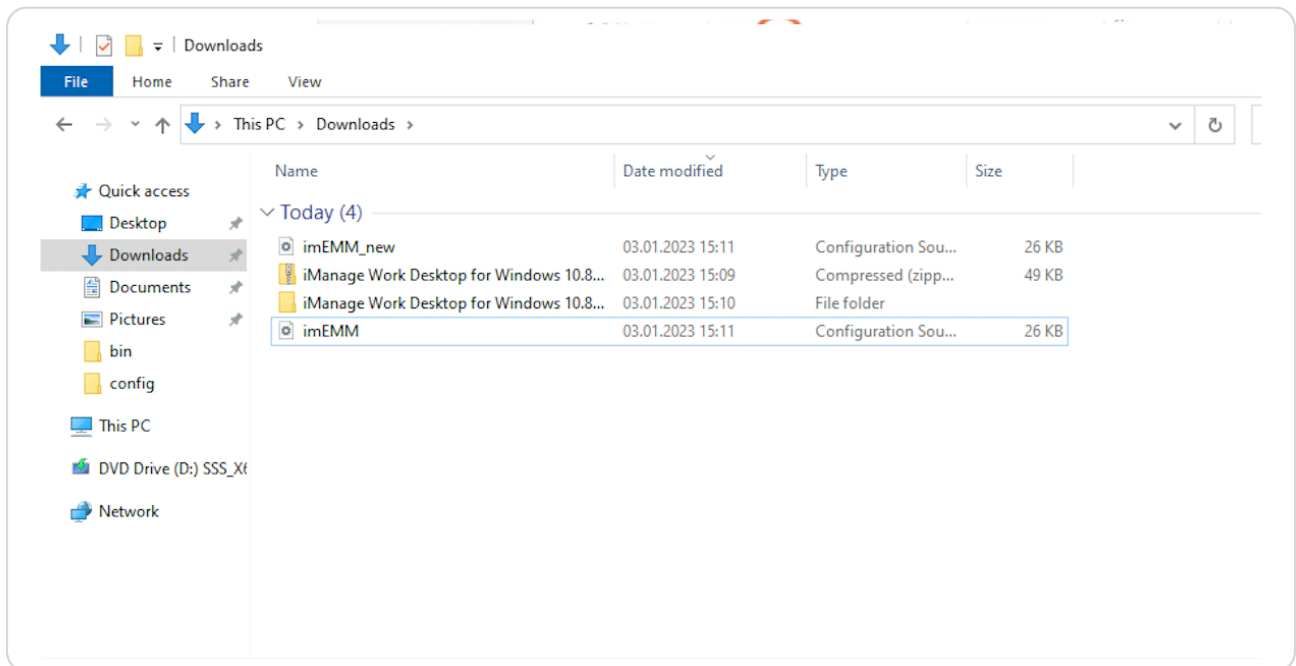

STEP 15

Extract the package with new config files and rename imEMM to imEMM_new

STEP 16

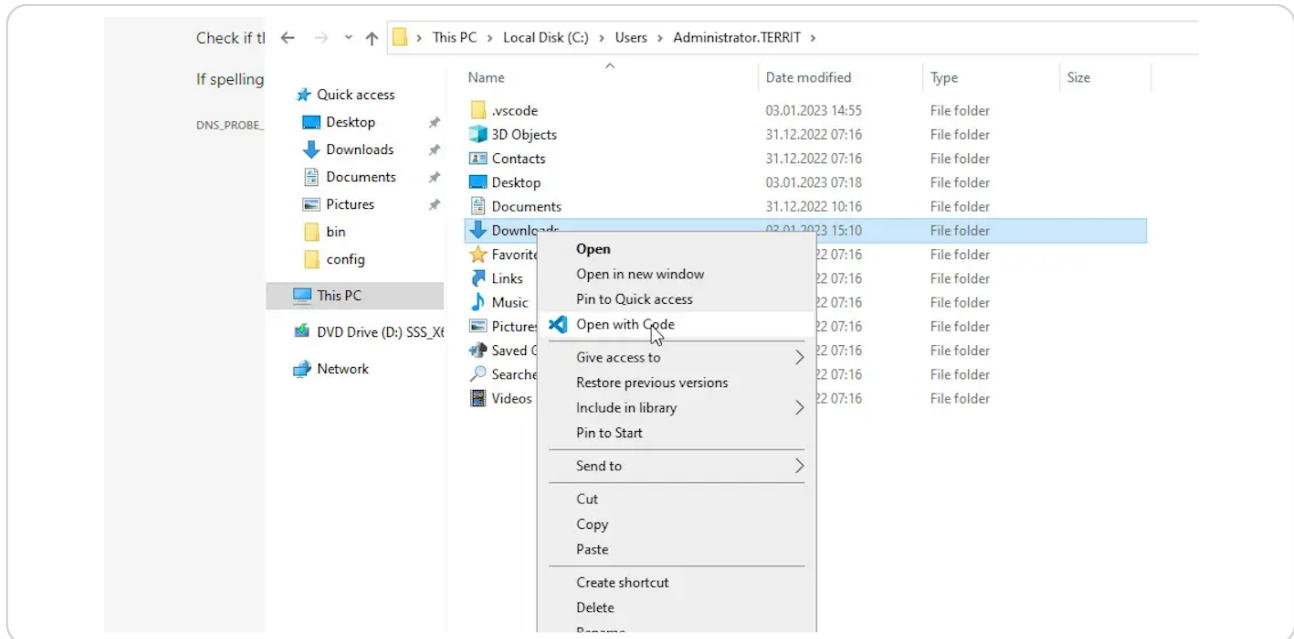

Copy imEMM_new to Downloads

STEP 17

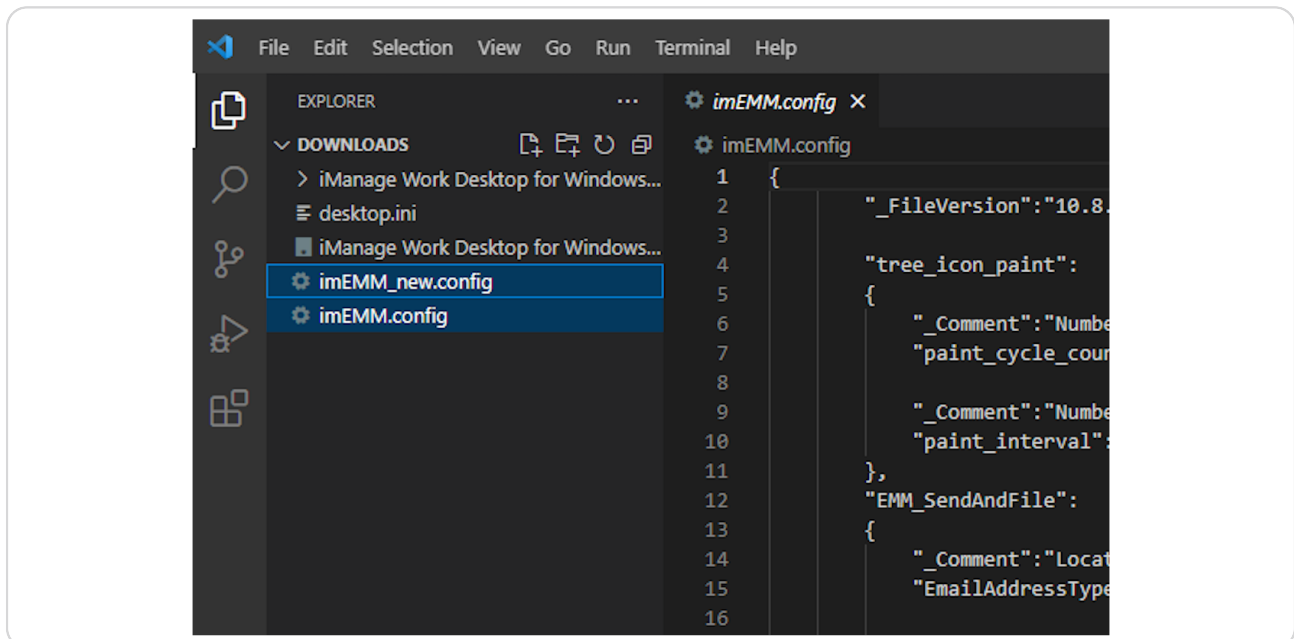

Open the Downloads folder with VS Code

You can use other apps that let you compare TXT files (like Notepad++)

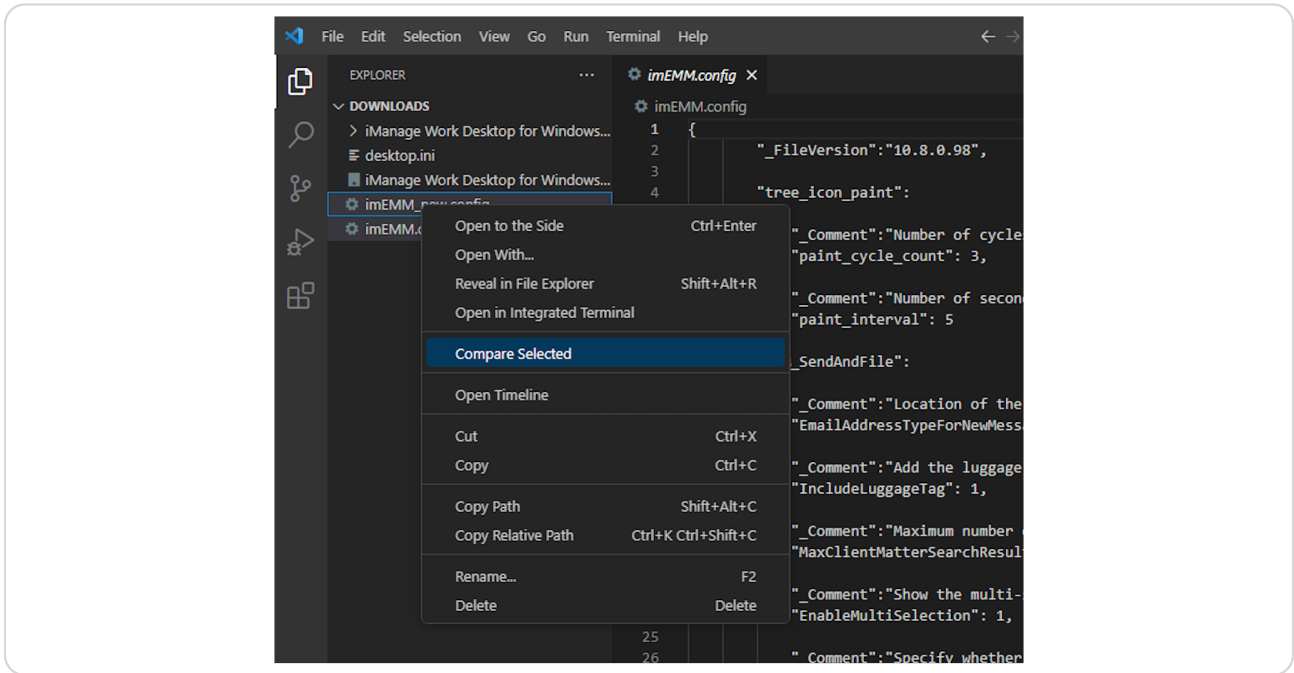

STEP 18

Select both files

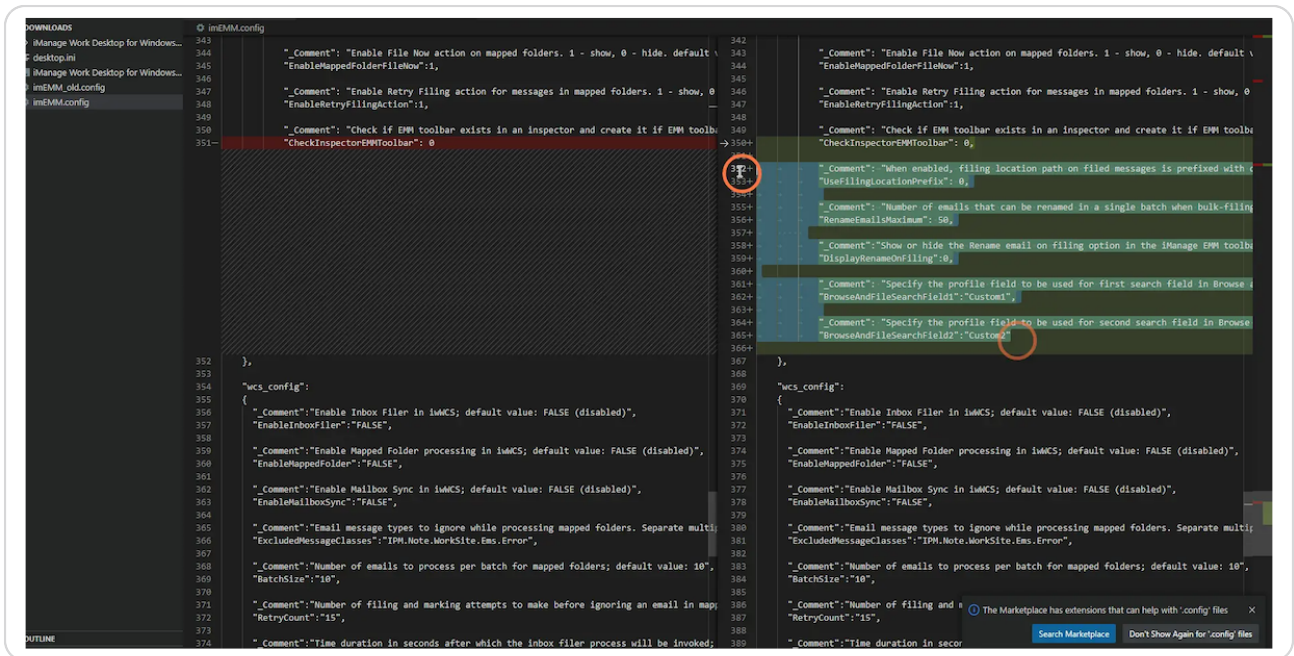

STEP 19

Right click and Compare selected

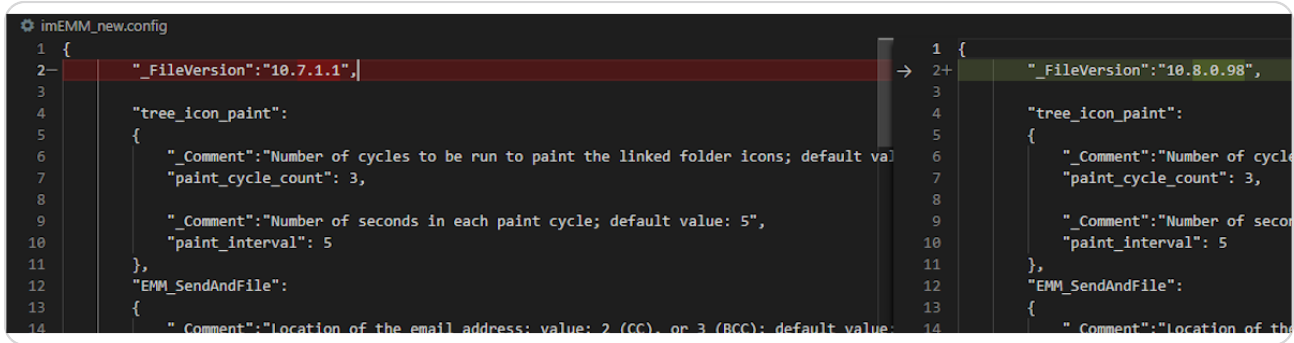

STEP 20

Grab new lines from the new imEMM and paste them into your current file

STEP 21

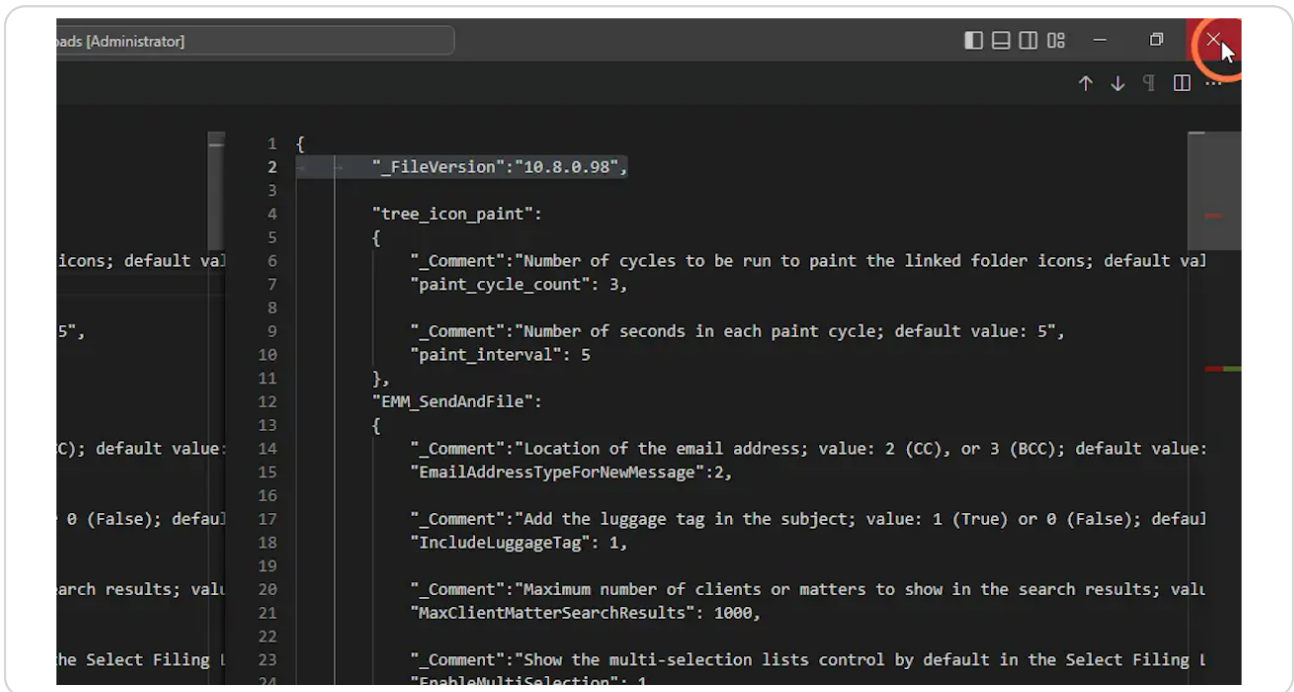

Don't forget to update the version

```
imEMM_new.config
1 {
2-  "FileVersion": "10.7.1.1",
3
4   "tree_icon_paint":
5   {
6     "_Comment": "Number of cycles to be run to paint the linked folder icons; default value: 3",
7     "paint_cycle_count": 3,
8
9     "_Comment": "Number of seconds in each paint cycle; default value: 5",
10    "paint_interval": 5
11  },
12  "EMM_SendAndFile":
13  {
14    "_Comment": "Location of the email address; value: 2 (CC), or 3 (BCC); default value: 2",
15    "EmailAddressTypeForNewMessage": 2,
16
17    "_Comment": "Add the luggage tag in the subject; value: 1 (True) or 0 (False); default value: 0",
18    "IncludeLuggageTag": 1,
19
20    "_Comment": "Maximum number of clients or matters to show in the search results; value: 1000",
21    "MaxClientMatterSearchResults": 1000,
22
23    "_Comment": "Show the multi-selection lists control by default in the Select Filing List",
24    "EnableMultiSelection": 1
25  }
26 }
```

STEP 22

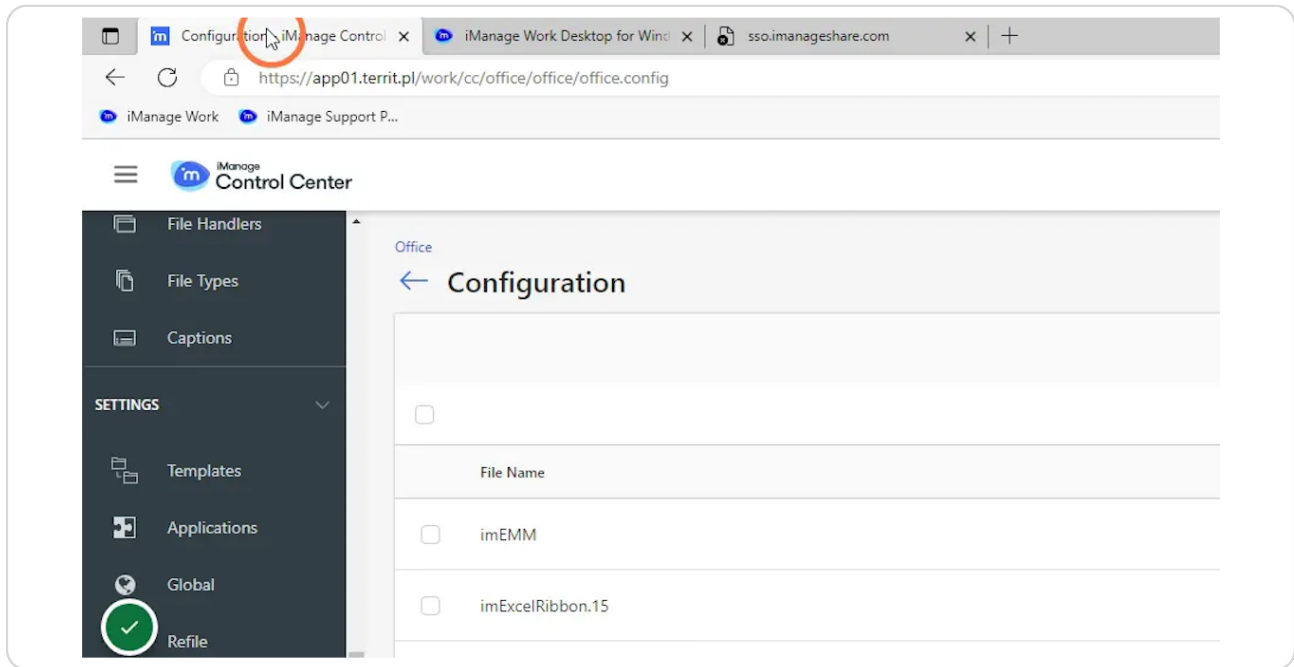

Save the file (Ctrl+S) and close VS Code

```
imEMM_new.config
1 {
2-  "FileVersion": "10.8.0.98",
3
4   "tree_icon_paint":
5   {
6     "_Comment": "Number of cycles to be run to paint the linked folder icons; default value: 3",
7     "paint_cycle_count": 3,
8
9     "_Comment": "Number of seconds in each paint cycle; default value: 5",
10    "paint_interval": 5
11  },
12  "EMM_SendAndFile":
13  {
14    "_Comment": "Location of the email address; value: 2 (CC), or 3 (BCC); default value: 2",
15    "EmailAddressTypeForNewMessage": 2,
16
17    "_Comment": "Add the luggage tag in the subject; value: 1 (True) or 0 (False); default value: 0",
18    "IncludeLuggageTag": 1,
19
20    "_Comment": "Maximum number of clients or matters to show in the search results; value: 1000",
21    "MaxClientMatterSearchResults": 1000,
22
23    "_Comment": "Show the multi-selection lists control by default in the Select Filing List",
24    "EnableMultiSelection": 1
25  }
26 }
```

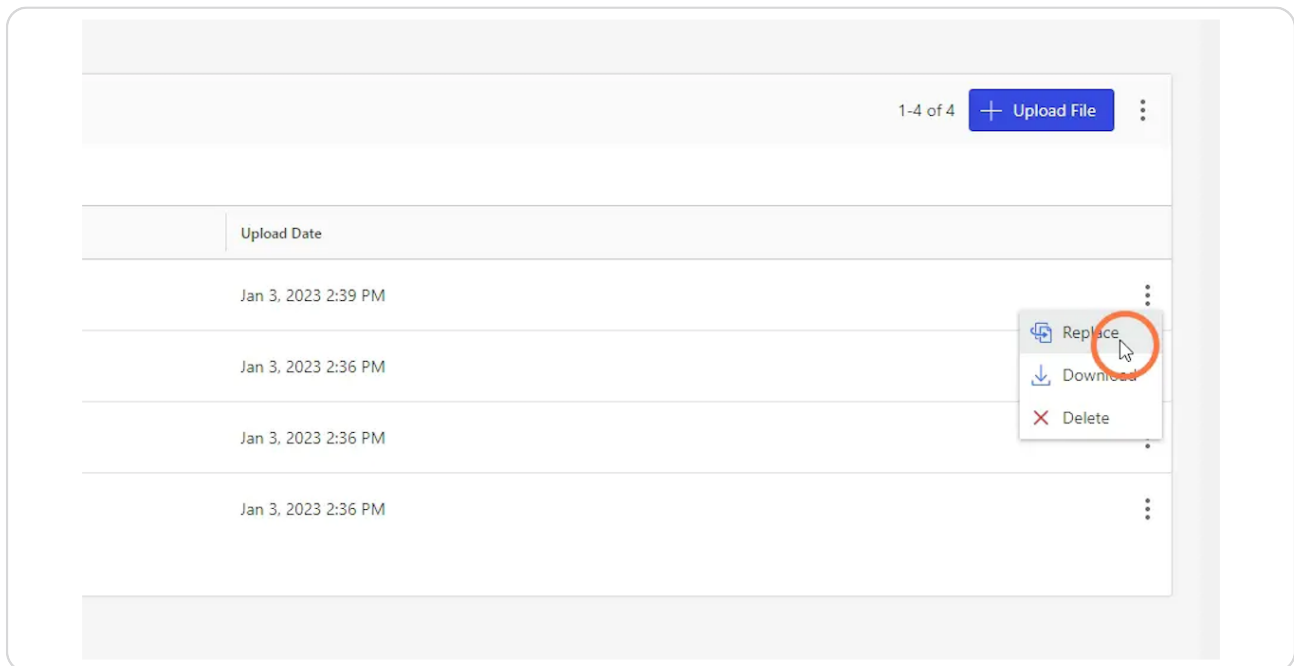

STEP 23

Go back to your Control Center

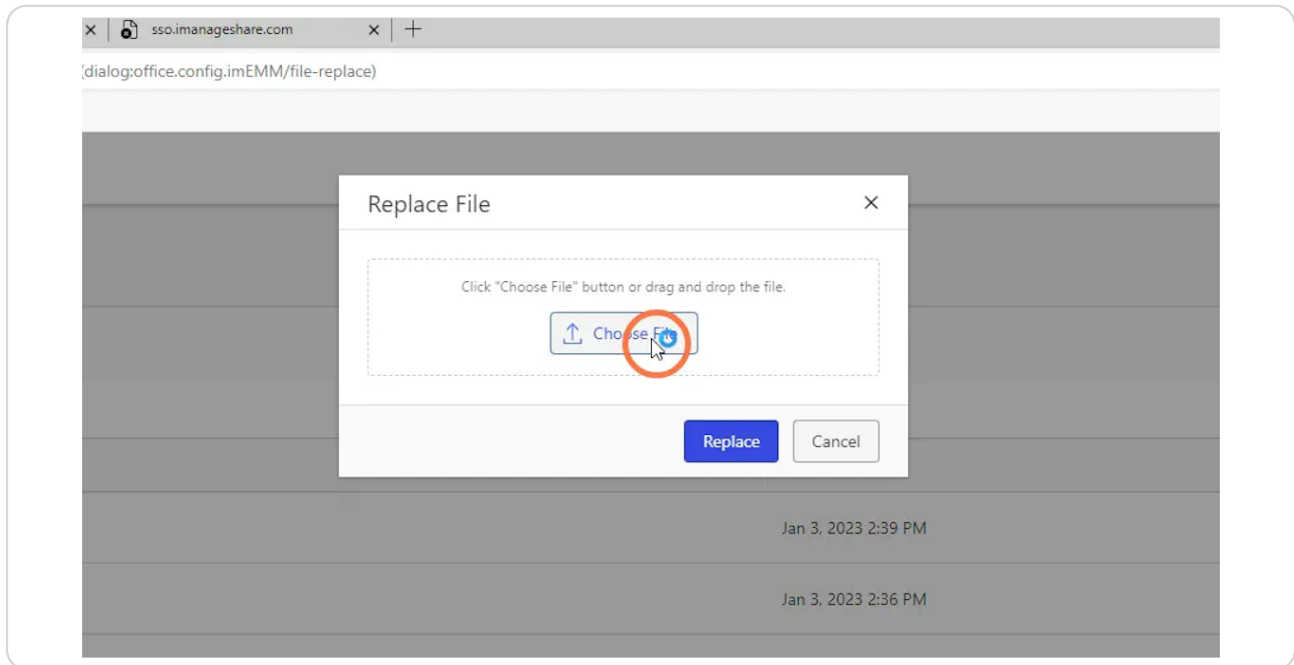

STEP 24

Go to imEMM properties and click Replace

STEP 25

Choose the imEMM.config file from your Downloads

STEP 26

Click Replace
